Technology

- AquaPiston canister allows water to flow into the bowl from all sides (360 degrees), increasing the power and effectiveness of the flush.
- Flush valve's 3: 2 ratio harnesses the natural force of gravity and optimizes flush performance.
- Durable canister design has 90% less exposed seal material than a 3-inch flapper, for leak-free performance.
- Light-touch canister flush requires a lower actuation force than a flapper.
- AquaPiston canister flush valve optimizes flush performance and resists warping and deterioration.
