### FIELD CHANGEABLE OPTICS

Iolite reflectors include 20°, 40° and 60° optics. Optics can be changed in the field by removing LED module from die-cast reflector. Replacement optics include an optional frosted lens.

### ACCESSORIES

Iolite accessories can be added at any point in the design process. Accessories easily install between LED module and die-cast reflector. Luminaire will accommodate (1) hex louver and (1) collar accessory, no accessory holder required.

**Translucent Decorative Collar**

NIO-1AS15(color) 5/8" length  
 NIO-1AS19(color) 3/4" length  
 NIO-1AS24(color) 1" length  
**Color:**  
 AM (amber), BLU (blue), FR (frosted), R (red)

Translucent collars color the aperture with the specified color while producing white general light. Collars are available in different lengths. Use to add interest, create a theme, match a theme or define a space.

**Opaque Collar Snoot**

NIO-1AS15(color) 5/8" length  
 NIO-1AS19(color) 3/4" length  
 NIO-1AS24(color) 1" length  
**Color:**  
 BLK (black), MPW (matte powder white), WH (white)

Opaque snoot greatly reduces aperture brightness while preserving light output. (Note: Black snoot will reduce light)

**Hex Cell Louver**

NIO-1HC Black

Hex cell louver subtly reduces aperture brightness by reducing light output by about 20%.

### FLUSH MOUNT

1" Iolite BWF reflectors can be installed flush with the drywall for a flush mount appearance. A flush mount mud ring is installed after the drywall and a professional drywall finisher floats the ceiling to blend in the mud ring.

### Flush Mount Mud Ring

**NIO-FMMR-1R** Round Mud Ring

Mounts trim flush to ceiling with reflector flange visible. **Mud ring attaches to drywall. Requires and only for use with NHIOICD-16 or NHIOICDCP-16 new construction housings and NIOB-1R reflectors.**  
 Dimensions: 7-7/8" diameter 1/2" thick
