

6IN RECESSED SHALLOW Ceiling joists, or in suspended ceilings Mounted • Damp Location Listed

Description:

6" Recessed Shallow New Construction Housing with Quick Link Connector for 6" Trim

Specifications:

- The housing and frame are constructed from die-formed corrosion resistant galvanized steel
- Its gasketed air-tight lamp housing prevents conditioned air from escaping into the attic space, reducing unnecessary HVAC energy usage, and the lamp housing compartment can be adjusted to fit ceiling thicknesses from ½ in. to 1 ¼ in.
- Wiring is made easy with the included wiring quick-connects that allow simple installation of 12-20 AWG wire without using separate wire nuts - simply strip supply wires and push in
- The housing has pre-installed nails on the adjustable hanger bars which are easily installed in regular lumber, engineered lumber, and laminated beams
- Hanger bars include t-bar mounting clamps for use in suspended t-grid ceilings and the bar hangers have a maximum span of 24 in. and are scored in two locations for fast, clean breaking, allowing housing installation in very narrow joist spacings
- Housing is provided with a medium base socket for a variety of bulbs - which are based on the trim used.
- The housing is compatible with a variety of trims and finishes to create different lighting effects or to easily match any decor
- cULus damp location rating makes this trim ideal for use in a variety of room settings where water may be present
- Fully dimmable with dimmable bulbs

Performance:

Input Power	50 W
Input Voltage	120 VAC
Warranty	1-year Limited Warranty
