

INSTALLATION INSTRUCTIONS

Adjustable Wall Wash Luminaries

MO-5028W

WAC LIGHTING

CAUTION: TO PREVENT ELECTRICAL SHOCK, ENSURE ELECTRICITY HAS BEEN TURNED OFF AT THE CIRCUIT BREAKER BEFORE BEGINNING.

- Read all instructions before installing.
- System is intended for installation by a licensed electrician in accordance with the National Electrical Code (NEC) and local regulations.
- When handling the fixture, do not apply pressure to the LEDs. Hold the fixture by the base only.
- Retain installation instructions for future maintenance reference.
- Risk of electric shock. Install all luminaires 10 feet (3.05m) or more from a pool, spa, or fountain.
- Route in close proximity to the luminaire or fitting, or next to a building structure such as a house or deck.
- Do not bury at a depth of more than 6 inches (15.2 cm) in order to connect to the main low voltage cable.
- Have the length cut off so that it is connected to a connector within 6 inches (15.2 cm) from a building structure, a luminaire, or fitting.

WARNING: All parts must be used as indicated in these instructions. This product is designed for use only with the supplied parts and/or accessories designated for use by WAC Lighting. Substitution of parts or accessories not designated for use with this product by WAC Lighting could result in personal injury or property damage, and will void the warranty. Contact an authorized dealer or the manufacturer if any parts are damaged or missing.

MAINTENANCE NOTE: Coastal conditions may cause mineral and residue build-up on the fixture. We recommend that customers in coastal areas clean all external surfaces of the fixture once every two weeks with a wet cloth.

MISE EN GARDE: Pour éviter tout choc électrique, assurez-vous que le disjoncteur soit mis hors tension avant de commencer.

- Lisez toutes les instructions avant l'installation.
- Le système doit être installé par un électricien licencié conformément au code national de l'électricité (NEC), et également aux règlements locaux.
- Lors de la manipulation du luminaire, n'appuyez pas sur les LED. Tenez-le uniquement par la base.
- Risque de choc électrique. Installez tous les luminaires de (3.05m) (10 ft.) ou plus d'une piscine, d'un spa ou d'une fontaine.
- Acheminer à proximité du luminaire ou d'un raccord, ou près d'un bâtiment telle une maison ou une terrasse.
- Ne pas enterrer à une profondeur supérieure à 6 pouces (15,2 cm) afin de pouvoir connecter au câble principal de tension basse.
- Couper la longueur de façon qu'elle soit connectée à un connecteur à moins de 6 pouces (15,2 cm) d'un bâtiment, d'un luminaire ou d'un raccord.

ATTENTION: Toutes les pièces doivent être utilisées comme indiqué dans ces instructions. Ce produit est conçu pour être utilisé seulement avec les pièces et/ou accessoires fournis pour être utilisés avec les produits WAC Lighting. Remplacer des pièces ou accessoires non conçus pour ce produit WAC Lighting pourrait causer des dommages corporels ou matériels et pourrait également causer l'annulation de la garantie. Veuillez contacter un revendeur autorisé ou le fabricant si des pièces manquent ou sont endommagées.

NOTE D'ENTRETIEN: Les conditions côtières peut causer une accumulation de minéraux et de résidus sur le luminaire. Nous recommandons aux clients qui résident dans les zones côtières de nettoyer toutes les surfaces externes du luminaire une fois toutes les deux semaines avec un chiffon humide.

ELECTRICAL DATA

Input Voltage	120-277V AC 50/60 Hz
Input Current (Max.)	0.70 A
Dimming	ELV

NOTE: All parts must be used as indicated in these instructions. Do not substitute any parts, leave parts out, or use any parts that are worn out or broken. Failure to follow this instruction could invalidate the ETL/CETL listing of this fixture.

INSTALLING ON TRACK:

1. Loosen the three canopy screws, twist and separate the canopy cover from the base plate (keep screws on base plate).
2. Remove a knock out from the base plate.
3. Attach the base plate to the surface using slotted holes for mounting screws (supplied).
4. Connect fixture wires to 120V AC power wire, with wire nuts (supplied).
5. Connect ground wire to the green wire from the fixture.
6. Mount the canopy to the base plate by twisting key holes over three screws in base plate.
7. Tighten screws to secure canopy.
8. After the light is on, rotate the luminaire body horizontally or vertically to aim properly.

BEAM ANGLE ADJUSTMENT:

1. Hold fixture body with one hand and back-rotating knob with another.
2. Grip the back-rotating knob and rotate it gently clockwise or counter clockwise until desired beam angle is achieved.
3. Cease rotation when you feel resistance as beam angle is reaching its minimum or maximum.

BEAM DISTRIBUTION ADJUSTMENT:

1. Hold fixture body with one hand and back-rotating knob with another.
2. Grip the back-rotating knob and rotate it gently clockwise or counter clockwise until desired beam angle is achieved.
3. Cease rotation when you feel resistance as beam angle is reaching its minimum or maximum.

Note: Please do not rotate fixture head when beam angle is at NEMA 6x5 distribution.

COLOR LENS ACCESSORIES (SOLD SEPARATELY):

1. Use the hex key to remove front shroud.
2. Use the hex key to push the button on top of the fixture and pull the front lens assembly out of the fixture.
3. Swing the two locking springs to free the reflector and clear lens. Swap the clear lens with color lens.
4. Push the front lens assembly back to the fixture. It will click on the fixture and will be secure by the spring structure.
5. Put the shroud back on the fixture.

NOTE: Due to tree growth, annual inspection of the strap is required to ensure that the fixture is secure. Failure to do so may cause the fixture to fall from the tree, or damage to the fixture or other items.
